1. RUN-EU PLUS content on the RUN-EU website

1.1. Overview of RUN-EU PLUS Project

The RUN-EU PLUS digital content is hosted on the parent RUN-EU website to maximise dissemination throughout an already established network of users associated with RUN-EU. The branding utilised also follows from RUN-EU in order to continue connectivity and recognition of quality of product and activities promoted. The RUN-EU PLUS webpage menu contains links to each activity associated with a work package output and content is continuously updated to ensure real-time communication and dissemination of RUN-EU PLUS outputs. Impacts are therefore measurable based on number of hits per activity page. News articles are also posted here.

The following infographics illustrate the website content in detail and can be accessed by the links provided.

1.2. Introduction to RUN-EU PLUS Members

The RUN-EU PLUS Project consists of members from seven Higher Education Organisations from six EU Countries. They are the founding members of the European University known as RUN-EU or Regional Universities Network-EU formed in 2020 through the European Universities Initiative. This Project is Co-ordinated by Dr Siobhán Moane of the Technological University of the Shannon (TUS), Ireland. The RUN-EU PLUS Project Management Committee and Individual Work package Committee Members are presented in **Figure 5**, with a link to their individual profile on the RUN-EU PLUS webpage.

Professor, Audi Faculty of Vehicle Engineering)	Michael Hellwig (Postdoctoral Fellow)	Jaap Sanders (Programme Manager in Education)
Joanne Prout (Graduate Studies and Research Office)	Sara Novis (Researcher Environmental Toxicology)	Anna Mikkonen (Postdoctoral Fellow)	Sofia Coelho (Social Services Director)	Tihana Vasic (Research Student)	Anna-Maria Baronenkova (Research Student)	Deike Schultz (Professor, Organisations and Social Media)
June Daly (Faculty of Business & Hospitality)	Sonia Pereira (Professor, Health Sciences)	Janne Salminen (Vice Dean, Prof. Public Law)		Gábor Dogossy (Associate Professor)		
Orla Thornton (Head of Marketing)	Dulce Correia (Librarian)	Iivari Kunttu (Lead Researcher, Bioeconomy)				
Carol Wrenn (Equality, Diversity and Inclusion Manager)	Rita Cadima (Vice President, Prof Education/Social Sciences)	Olli Niemitalo (Data analyst)				
Jessica Walsh (Researcher, Bioscience)	Rita Cordeiro (Communications Manager)					
	Carolina Cardoso (Digital Content Manager)					

1.3. Overview of RUN-EU PLUS Ambassadors

The RUN-EU PLUS Ambassadors networks are an essential tool in the development of the project objectives, tasks and deliverables. Overall, they are responsible for the development of inclusivity, skills and R&I knowledge transfer and Innovation across the RUN-EU PLUS partner alliance. Communication and dissemination of these activities, their impacts and outputs are presented in **Section 2** of this report.

1.3.1. Gender and Equality Ambassador Network

This network has been developed to support, encourage and advocate for gender equality in research and innovation and career advancement within the RUN-EU network, following European Commission recommendations on gender balance and equality. Each RUN-EU alliance partner has nominated 1 Gender and Diversity ambassador whose profiles are presented in **Figure 6**.

Figure 6. RUN-EU PLUS Gender & Diversity Ambassadors

1.3.2. Open Science Ambassador Network

This network supports the open science agenda across the alliance to exchange best practice and mutual learning within the RUN-EU alliance. These ambassadors are local resources for increasing conversations around open science thereby cultivating awareness, fostering openness and equipping RUN-EU researchers with the necessary tools to champion the open science agenda. The ambassadors of the network, their RUN-EU alliance member and professional role presented in **Figure 7**.

Figure 7. RUN-EU PLUS Open Science Ambassadors

1.3.3. Research and Innovation Ambassador Network

The R&I ambassador network consolidates the connection of the RUN European University with other actors of the RUN-EU Innovation Ecosystem including funding agencies, investors, and the wider business community. These ambassadors have informed the development of the RUN-EU Innovation Capacity Programme which is a key pillar in the RUN-EU Innovation Ecosystem and they hold a pivotal role in its Research and Innovation Committee as presented in D6.1 RUN-EU Innovation Ecosystem. Each RUN-EU alliance member has nominated 2 R&I ambassadors who are shown in **Figure 8**. Each ambassador is a leading figure in research and in innovation development and commercialisation within their institution.

1.4. Overview of RUN-EU PLUS Training Workshops

The Research Career Development Programme provides support to our researchers in identifying clear personal career paths which enable them to avail of inter-sectoral and international mobility during their careers. Linking with the RUN-EU European Mobility Innovation Centre and the RUN-EU Discovery Programme, training workshops are being identified to provide skills and key information to researchers to gain this understanding.

Figure 9 lists the training workshops provided by RUN-EU PLUS across the RUN-EU alliance in 2022.

This was disseminated on the RUN-EU website and across the RUN-EU PLUS partner alliance.

1.4.1.3. Training Workshops article

The following article included on the RUN-EU PLUS webpage details the programme contacts and locations. The link to this article is provided below.

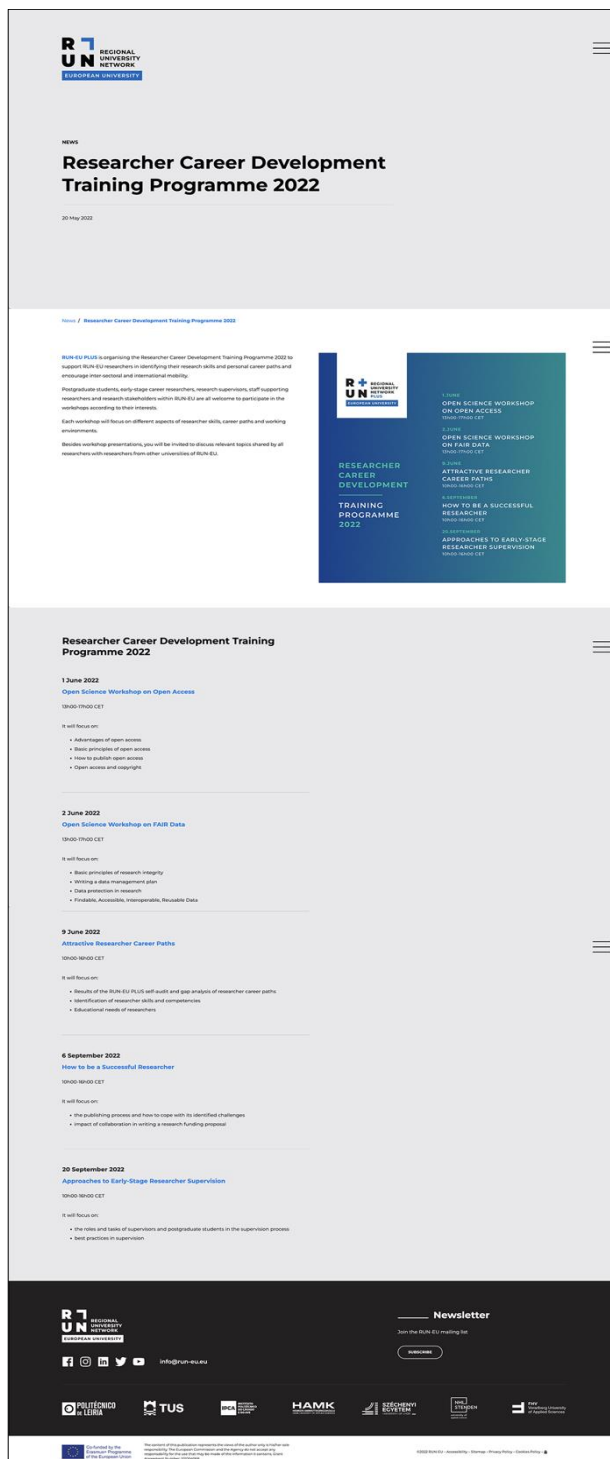

Figure 10. RUN-EU PLUS Article on Researcher Career Training Programme
<https://run-eu.eu/2022/05/20/researcher-career-development-training-programme-2022/>

1.4.1. Open Science Workshop Programmes

As part of the RUN-EU PLUS project and its Researcher Career Development Training Programme, two online workshops on open science principles and practices took place in June.

These workshops were provided by Häme University of Applied Sciences (HAMK), University of Győr – Széchenyi István University (SZE), Polytechnic of Leiria, and NHL Stenden University of Applied Sciences (NHL Stenden) and aimed to introduce participants to Open Access, Research Data Management, and FAIR (Findable, Accessible, Interoperable, Reusable) Data.

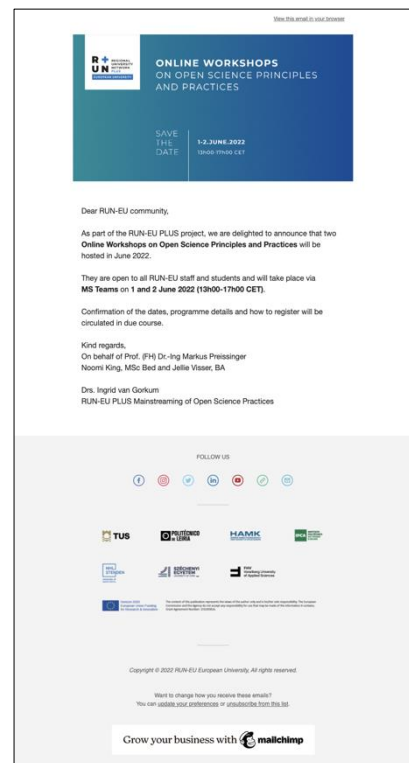

Open science is the movement that wishes all research publications (whether data, logs, or articles) to be made public, used by everyone, and even republished (publicly) on other platforms. Not all data may be published openly. It is all about the principle of open publication if possible, keeping it closed if necessary.

The RUN-EU PLUS Online Workshop on Open Access reached 90 participants and the Online Workshop on FAIR Data was attended by 92 people. All feedback received was positive and is reported in RUN-EU PLUS D5.4 Annual Report on the Implementation of the Open Science Skills Training Programme – 1st Report.

Communication of these events was completed through the webpage, emailing and social media via RUN-EU tags and dissemination of outputs via screen capture publication and videos of presentations. **Section 1.4.1.1** illustrates the design of ‘Save the Date’ and final notification banners and mailing content used for communication to our alliance network about the events while **Section 1.4.1.2** illustrates the dissemination outputs gathered.

Notice for events was communicated through the ‘Save the Date’ banners three months before the events with full details communicated two months in advance.

1.4.2. Attractive Researcher Career Path Workshop Programme

As part of the RUN-EU PLUS Researcher Career Development Training Programme 2022, a Workshop on Attractive Researcher Career Paths took place on 9 June.

The workshop gathered 54 RUN-EU researchers at different researcher career stages from across the alliance – those supporting researchers and those considering a career as a researcher.

Dr Siobhán Moane (RUN-EU PLUS Project Manager, TUS) describes the workshop as a great space and time for researchers to meet new colleagues within their European University and to discuss researcher career matters that participants had identified during the workshop registration process. In the morning, presentations focused on information on European goals for researcher careers and how to strengthen research career opportunities within the consortium universities.

Critical topics and challenges regarding researcher career paths were discussed in smaller groups during breakout room sessions. Before the workshop, participants had received a self-audit report on the researcher's career paths undertaken by RUN-EU PLUS as the workshop pre-material. The themes and gaps identified in the report became more "alive" when the researchers shared the challenges they experienced in constructing continuity in their careers.

The event encouraged participants to assess their research skills and identify their training needs. In the afternoon, short presentations on community-based practice research, on research collaboration with enterprises including intellectual property questions, and storytelling as an example of science communication, were all referring to the large variety of skills that researchers use in building their research impact in science and society.

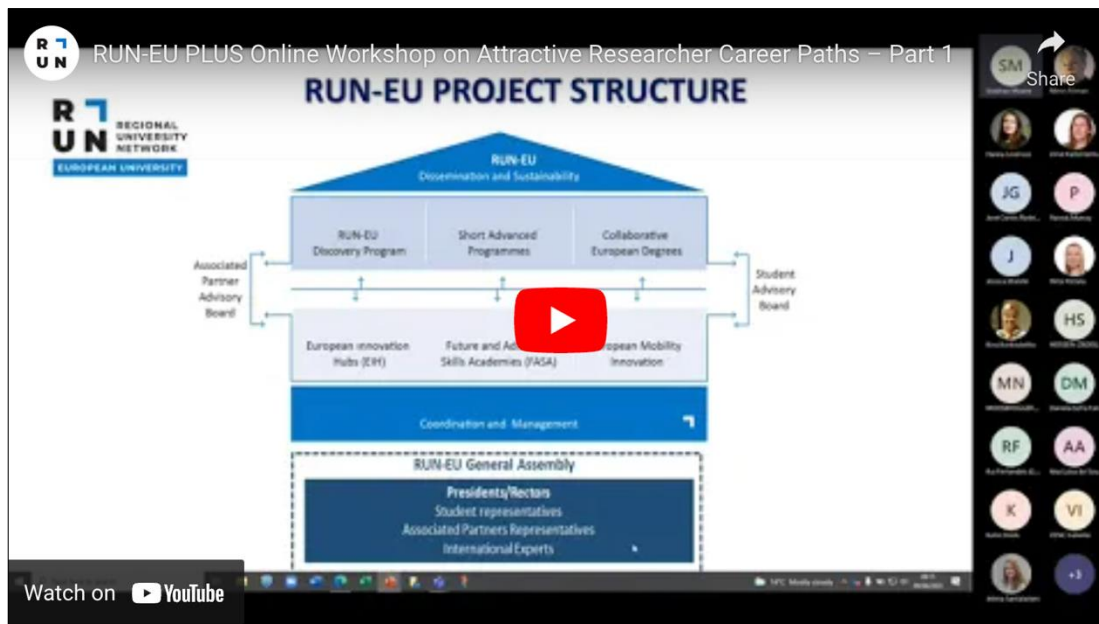

1.4.2.1. Workshop banner

Figure 16. Workshop Banner – Attractive Researcher Career Paths

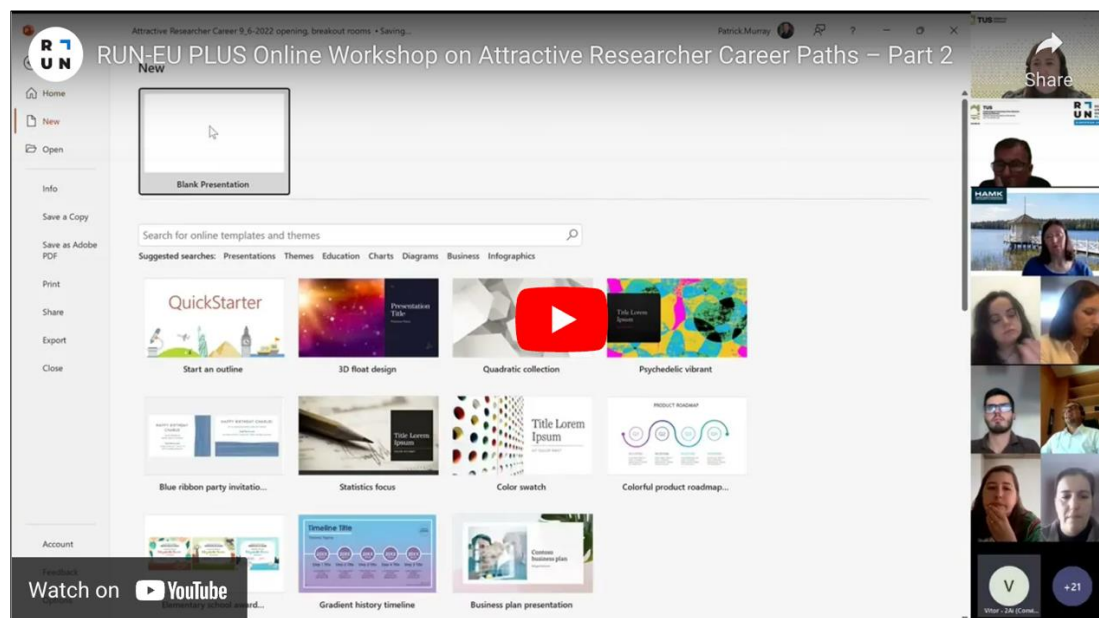

The workshop banner was communicated as per the previous workshops via the RUN-EU PLUS webpage and emailing three months in advance, with final notification two months in advance. Examples of dissemination of the activity via video recordings and News Articles on the RUN-EU website are illustrated below. Links to the articles and video repository are included. Feedback from workshop participants is presented in RUN-EU PLUS D4.3 Annual Report on the Implementation of the Research Career Development Framework Training.

EVENT
Online Workshop on Attractive Researcher Career Paths
16 May 2022

Workshop on Attractive Researcher Career Paths
9 June 2022 - 10h00-16h00 CET - HS Teams

As a researcher, do you wish to enhance and clarify your future career path?
RUN EU PLUS aims to support our researchers in identifying their personal career paths and to encourage interaction, interdisciplinary and international mobility during their research careers. Within the RUN EU universities, there is a variety of current researcher career path possibilities, in addition to diverse needs and offerings in researcher skills and training.

The workshop will focus on:

- results of the RUN EU PLUS self-audit and gap analysis of researcher career paths
- identification of researcher skills and competences
- educational needs of researchers

Come meet your RUN EU PLUS colleagues, share good practices, network and discuss critical topics and challenges regarding researcher career path!

This event will provide you with information on European goals for researcher careers and how to strengthen research career opportunities in our RUN EU universities. It will also explore your abilities to identify your research skills and training needs.

Prior to the workshop, you will receive the RUN EU self-audit report on the researcher career paths developed by RUN EU PLUS project members.

Programme

10h00-10h15 Welcome and introductions, Dr Maria Fisman (HAMK)	10h45-10h55 Summaries of Breakout Session 1 and discussion on attractive research career path structures (Shared session, Dr Siobhan Mooney)
10h15-10h30 Introduction to RUN EU and RUN EU PLUS (presentations), Dr Siobhan Mooney (TUS)	10h30-10h40 Researcher skills and competences (short presentations), Dr José Carlos Gomes (Polytechnic of Leiria), Dr Thine Hovnes (POL), Dr Fabian Pöschinger (POL), Dr Jani L. Vuori (POL), Dr Viree Kallanuram-Chandran (HAMK)
10h30-10h40 Researcher Career Framework (presentations), Dr Patrick Murphy (TUS)	10h40-10h45 Breakout Session 2
10h40-10h45 Self-Audit & Gap Analysis of Researcher Career Development Practices across RUN EU (presentations), Dr Viree Kallanuram-Chandran (HAMK)	10h45-10h50 Discussion of future researcher skills requirements and educational needs of researchers
10h45-10h45 Guidelines for breakout sessions, Viki Hanna Lindqvist (HAMK)	10h50-10h55 Summaries of breakout Session 3 and discussion on educational needs of researchers (Shared session)
10h50-10h55 Breakout Session 1	10h55-10h55 Feedback and next steps in the RUN EU PLUS researcher training programme
10h55-10h55 Discussion of Research Career Paths	10h55-10h55 Closing message
10h55-10h55 Lunch break

1.4.3. How to be a Successful Researcher

RUN-EU PLUS organised an online workshop on How to be a Successful Researcher on 6 September 2022, specially developed for researchers, postgraduate students, and supervisors. There were 102 participants at this workshop.

It focused on the publishing process and how to cope with its identified challenges impact of collaboration in writing a research funding proposal.

The morning session focused on the publishing process, and the afternoon one on networking from the research funding proposal point of view. Participants were welcome to join both or either session of this workshop.

This workshop provided information on best practices in developing an individual publishing strategy. It also provided support to researchers to write articles and research proposals collaboratively in the research field. The workshop banner and information article are included below. Feedback from workshop participants is presented in RUN-EU PLUS D4.3 Annual Report on the Implementation of the Research Career Development Framework Training.

1.4.3.2. News article

The screenshot shows a webpage for an online workshop. At the top left is the R+ UN logo. The main heading is 'Online Workshop on How to be a Successful Researcher' dated 4 July 2022. Below the heading is a brief introduction: 'RUN EU PLUS will organise an Online Workshop on How to be a Successful Researcher on 6 September 2022, specially developed for researchers, postgraduate students, and supervisors. As a researcher, do you want to know more about the publishing process and how to build your research publishing plan? Also, what are the first steps in building a network for collaborative research proposal writing? Meet your RUN EU PLUS colleagues, share best practices, network and discuss critical topics and challenges in the workshop.'

The 'Workshop on How to be a Successful Researcher' is scheduled for 6 September 2022, from 10:00 to 16:00 CET. It will focus on:

- the publishing process and how to cope with its identified challenges;
- impact of collaboration in writing a research funding proposal.

 The morning session will focus on the publishing process, and the afternoon one on networking from the research funding proposal point of view. Participants are welcome to join both or either session of this workshop. This workshop will provide you with information on best practices in developing an individual publishing strategy. It will also support you in building your RUN EU researcher network to write articles and research proposals collaboratively on your research field. Before the workshop, you'll receive a pre-assignment that will be discussed in the breakout rooms.

A 'REGISTER ON 4 SEPTEMBER' button is visible. Below the main text is a 'Programme' section with a detailed schedule:

10:00-10:15 Welcome and introductions, Dr Slobhan Mehta (TUS) and Dr Vira Kallioniemi-Chambers (HAMK)	13:00-14:00 Importance of networking and collaboration in applying research funding (presentations), Dr Petra Salazar (UZE)
10:15-10:45 Key challenges in publication (presentations), Dr Katriin Caule (UZE)	14:00-14:05 Break
10:45-10:50 Break	14:05-15:00 Breakout Session 2: Discussion on building collaborative research and project proposal writing
10:50-10:55 Guidelines for breakout sessions, Ms Hanna Lindroos (HAMK)	15:00-15:45 Summaries of Breakout Session 2 and discussion on research collaborations and proposal writing (plenary session by Dr Petra Salazar)
10:55-10:58 Breakout Session 1: Key challenges and how to cope with them in the publication process (pre-assignment as the base for the discussions)	15:45-16:00 Feedback and closing message, Dr Maria Finlay (HAMK)
12:15-12:45 Summaries of Breakout Session 1 and discussion on strategic publishing (plenary session, Dr Katriin Caule)	
12:45-12:50 Lunch break	

At the bottom, there is a 'Newsletter' sign-up section and logos for partner institutions: ALTECENICO DE TERRA, TUS, UN, HAMK, ESCHEM, and others. The footer includes the text 'Supported by the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska Curie grant agreement. The European Commission is not responsible for the content of this report or for any use of the information it contains.' and the URL '©2022 RUN EU - Accessibility: Strategic Planning Policy'.

1.4.4. Workshop on Approaches to Early-Stage Researcher Supervision

RUN-EU PLUS delivered an online workshop on Approaches to Early-Stage Researcher Supervision on 20 September 2022, specially developed for new research supervisors and researchers wishing to take up the role of a supervisor in the future. 42 participants from across RUN-EU took part in this workshop and the breakdown of their researcher roles and workshop feedback is presented in RUN-EU PLUS D4.3 Annual Report on the Implementation of the Research Career Development Framework Training.

PhD students were also welcomed to participate in this workshop to represent the supervisee point of view and gain insights into the supervision process.

One essential goal of RUN-EU PLUS is that RUN-EU researchers will attain advanced competencies in research and transferable skills and the ability to plan their career and learning paths toward it.

Supervisors are key actors in enabling the continuous learning and skills development processes of all researchers. Postgraduate students in turn have their own important impact on the collaboration process with a supervisor.

The workshop will focus on the roles and tasks of supervisors and postgraduate students in the supervision process and best practices in supervision in various supervision environments

The workshop banner and information article are included below.

1.5. Annual International Conference on Applied Research with Business and Society (ICARUS) – Year 1

Hosted by the University of Győr – Széchenyi Istvan University, the first RUN-EU PLUS ‘Annual International Conference on Applied Research with Business and Society’ (ICARUS) was held online on 14 December 2021.

This was the first conference of the RUN-EU PLUS project since it was launched on 5 November 2021, at the RUN-EU General Assembly in Ireland. It engaged research students, scholars, researchers, and business and society stakeholders in discussions concerning the development of practice-based research degree programmes, open science practice and researcher career development across RUN-EU.

This conference highlighted the importance of the ‘PLUS’ (Professional Research Programmes for Business and Society) attached to the original RUN-EU and emphasised the project vision of adapting the RUN-EU research outcomes to regional labour markets and societal demands, with measurable downstream societal benefits that will lead to the transformation of the European regions. Its three tracks are linked to the focus areas of the alliance and its future European Innovation Hubs (Future and Sustainable Industries; Bioeconomy; and Social Innovation).

The conference was held online due to continued COVID-19 restrictions across Europe so registration and connectivity with the event was through Eventbrite. All Alliance organisation members were invited to attend as well as RUN-EU and RUN-EU PLUS associated partners in government, community and state agencies as well as the wider associated business community.

The following sections illustrate the communications and dissemination outputs from this event.

1.5.1. ICARUS1 Banner

The ICARUS1 Banner was designed following RUN-EU branding guidelines adapted for RUN-EU PLUS. Each subsequent year will utilise similar banner design with minor updates focusing on the location and theme of the conference. Communication was two months in advance of the event with Registrations opening one month in advance.

Figure 23. ICARUS1 Conference Banner for Social Media

1.5.2. Registration call

The image shows a screenshot of an email registration call for the ICARUS1 Conference. The header features the RUN+ logo and the text 'REGIONAL UNIVERSITY NETWORK PLUS EUROPEAN UNIVERSITY'. The event title is 'RUN-EU+ ICARUS Conference - 14th Dec, 2021 - By Széchenyi István University'. The event details include the date and time (Tue, 14 December 2021, 10:00 - 15:00 CET) and the location (Online event). The main body of the email describes the conference's focus on professional research programmes for business and society, lists the objectives of the conference, and provides contact information for Dr. Petra Szakonyi. The footer includes logos of partner organizations and the text 'Organiser of RUN-EU+ ICARUS Conference - 14th Dec, 2021 - By Széchenyi István University'.

1.5.3. Related news articles

As events or activities occur a news article is generated to summarise the outputs, learnings and experiences of the participants and organisers to provide feedback and further disseminate the RUN-EU PLUS objectives. Examples of these are included below for the Inaugural ICARUS1 conference and RUN-EU PLUS Call for Consultancy Services.

2. RUN-EU PLUS Dissemination Activities

The Dissemination Activities for all RUN-EU PLUS work packages are detailed below as disseminated by each Alliance organisation. Impacts of some events were low as they were targeted as information sessions internally or targeted workshops. However, wider impacts for presentations and conferences was very acceptable with over 5,000+ hits at each event. It is the aim of the Dissemination Committee to increase the impacts of activities and articles with regular newsletters and e-zines designed for specific target audiences such as *the student, the researcher, the enterprise* ensuring a clear communication of the power of RUN-EU and RUN-EU PLUS for transformation of the associated Regions and thereby Europe through transformational learning, research, innovation and mobility.
