

Diversifying Our Library

We are committed to creating an environment where diversity is celebrated and everyone is treated fairly regardless of:

- Disability
- Gender
- Ethnicity
- Sexual Orientation
- Age
- Civil/Family Status
- Religion
- Any other personal characteristics or identities

Our goal is to make the library collections, services and spaces more diverse and inclusive. This can be achieved by

Diversifying collections to reflect the university's population	Encouraging collections from marginalized groups
Promoting diverse voices	Supporting critical evaluation of information
Creating accessible and inclusive spaces and services	Advocating for diverse groups through events and exhibitions
Publicising diversity initiatives and progress	Building accessibility into our teaching
Training staff on how to make it happen!	

Kathryn Briggs

To ensure everyone feels **welcome** and included libraries and library staff should **embrace equality, diversity, and inclusion** in everything we do.
